

PCEHR Prescription and Dispense View v1.2

Release note

9 October 2013

Approved for external information

Summary

End product

EP-1436:2013 PCEHR Prescription and Dispense View v1.2

Release rationale

This release of the PCEHR Prescription and Dispense View end product introduces updates to the conformance profile for PCEHR Prescription and Dispense View documents, as mandated by the following approved change request.

More detailed information about the referenced change request is provided in the [Capabilities](#) section of this document and can be accessed by following the provided hyperlink.

Change Request ID	Change request title	Impact on this release
CCB-0222	Support for CSP Certificates in CDA Documents	Removed conformance requirements for digital signatures. This requirement has been replaced with an expanded conformance requirement in the <i>Clinical Documents - Common Conformance Profile v1.4</i> .

This end product has a dependency on: NEHTA-1446:2013 *Clinical Documents - Common Conformance Profile v1.4* (part of EP-1457:2013 Common – Clinical Document v1.1)

This incremental release also includes a product data sheet for the Prescription and Dispense View Style Sheet.

Package inclusions

New

Identifier	Name	Version
NEHTA-1405:2013	<i>PCEHR Prescription and Dispense View Style Sheet Product Data Sheet</i>	1.0

Updated (supersedes previous version)

Identifier	Name	Version
NEHTA-1445:2013	<i>PCEHR Prescription and Dispense View – Release Note</i>	1.2
NEHTA-1453:2013	<i>PCEHR Prescription and Dispense View –Conformance Profile</i>	1.2

No change to the following inclusions

Identifier	Name	Version
NEHTA-1358:2013	<i>PCEHR Prescription and Dispense View Style Sheet</i>	1.1.0
NEHTA-1359:2013	<i>PCEHR Prescription and Dispense View Presentation Guide</i>	1.0
NEHTA-1126:2013	<i>PCEHR Prescription and Dispense View Structured Content Specification</i>	1.0
NEHTA-1127:2013	<i>PCEHR Prescription and Dispense View CDA Implementation Guide</i>	1.0

Withdrawn

No components have been withdrawn.

Scope

The scope of the PCEHR Prescription and Dispense View end product has not been changed as part of this release.

Stakeholders

The following stakeholders have been involved in the development of this release:

- Department of Health and Ageing (DoHA)
- Accenture
- CCA Governance Group

Audience

- Implementers of clinical systems producing or consuming PCEHR Prescription and Dispense View clinical documents
- Senior managers and policy makers, clinical experts, health information managers, IT operations and support teams, and system integrators
- Technical and non-technical readers

Capabilities

The following sections provide additional details for each of the change requests addressed in this release.

CCB-0222

The change request introduces support for digital signatures created with CSP digital certificates for all types of clinical documents. New conformance requirements have been added in the *Clinical Documents - Common Conformance Profile v1.4*.

These new conformance requirements expand on and replace the conformance requirement for digital signatures in the *PCEHR Prescription and Dispense View - PCEHR Conformance Profile v1.1*. With version 1.2 of the *PCEHR Prescription and Dispense View - PCEHR Conformance Profile* this conformance requirement has been removed.

Known issues

None known

Support

This release will be supported for two years from the date of publication.

For further support or to provide feedback, please email help@nehta.gov.au.

Future releases

Increased uptake and implementation of the specifications provided as part of this end product is expected to result in the need to further update and improve these specifications. Any such updates will be managed through the joint change control process operated by DoHA.

Some of the changes introduced to the conformance profile with this release for the CCB-0116 change request are temporary and will need to be removed after the expiration of the HPI-I relaxation requirement. This will result in the need to update the conformance profile again. The current expiration date for the HPI-I relaxation is 30 June 2014, however this date is still under review by DoHA and likely to be extended.

In addition to changes managed through the joint change control process, NEHTA may provide supplementary implementation guidance for the specifications in this end product. Such information will be added to the end product as additional or updated product components and published as an incremental release of the end product (version identifier 1.2.x).

Previous releases

EP-1361:2013 PCEHR Prescription and Dispense View v1.1

Release note: NEHTA-1360:2013, 26 June 2013

Summary

The PCEHR Prescription and Dispense View will be provided as a Clinical Document Architecture (CDA) document by the Personally Controlled Electronic Health Record (PCEHR) system.

The individual will be able to retrieve PCEHR Prescription and Dispense View CDA documents through their PCEHR, and healthcare providers with access to the individual's PCEHR will be able to access these same documents using the PCEHR system's business-to-business gateway. The individual's PCEHR Prescription Record and PCEHR Dispense Record data items stored in the PCEHR system serve as source data for the individual's PCEHR Prescription and Dispense View.

The PCEHR Prescription and Dispense View CDA specifications form part of the foundational set of specifications to support the development of an individual's PCEHR.

Release rationale

This release will:

- Assist clinical information system vendors to render and display the Prescription and Dispense View in a consistent manner while taking advantage of the safety assessment that has been carried out in this guide's development. All the mandatory guidance points will form the basis of compliance audits of the implementation in vendor software.
- Provide clinical information system vendors with a style sheet that is aligned to and conformant with the *PCEHR Prescription and Dispense View Presentation Guide* that they can integrate into their products. This supersedes version 1.0.1 which was a limited release made available to the vendor panel on 21-March-2013.

Package inclusions

New or updated inclusions

Identifier	Name	Version
NEHTA-1359:2013	<i>PCEHR Prescription and Dispense View Presentation Guide</i>	1.0
NEHTA-1358:2013	<i>PCEHR Prescription and Dispense View Style Sheet</i>	1.1.0

No change to the following inclusions

Identifier	Name	Version
NEHTA-1126:2013	<i>PCEHR Prescription and Dispense View Structured Content Specification</i>	1.0
NEHTA-1127:2013	<i>PCEHR Prescription and Dispense View CDA Implementation Guide</i>	1.0
NEHTA-1335:2013	<i>Conformance Profile for PCEHR Prescription and Dispense View</i>	1.1

Withdrawn

No components have been withdrawn.

Scope

The *PCEHR Prescription and Dispense Presentation Guide* covers:

- Presentation guidance for the Prescription and Dispense View.
- Illustrations of guidance points.
- Visual design of the Prescription and Dispense View.
- Rationale for design choices.
- Unmitigated risks with design choices.
- General risks.
- Next steps for the Prescription and Dispense View.

This *PCEHR Prescription and Dispense Presentation Guide* does not cover:

- Other views and requirements for the PCEHR.
- Technical specification for rendering the Prescription and Dispense View.
- Conformance Compliance and Accreditation (CCA) requirements.
- Interoperability between systems generating the Prescription and Dispense View and those rendering it.
- Presentation of the underlying PCEHR Prescription Record and PCEHR Dispense Record clinical documents.

Stakeholders

The following stakeholders have been involved in the development of this release:

- NEHTA
- eHealth Implementation site partners and vendors
- PCEHR National Infrastructure Operator
- Department of Health and Ageing

Audience

The intended audience of this document includes:

- Clinical peak bodies, representative groups and subject experts in the area of pharmacy and general practice.
- Hospitals and health departments planning, implementing or upgrading eHealth systems.
- Software vendors, software developers and designers developing eHealth system products.
- General practitioner desktop software vendors.
- Community pharmacy desktop software vendors.
- Jurisdictions, health service providers and health software representative groups.
- Senior managers and policy makers, clinical experts, health information managers and system integrators.
- Stakeholders associated with the development and use of upcoming eHealth initiatives relating to Medications Management.

- Individuals and individual representatives.

For further details on access to this release please send an email to help@nehta.gov.au.

Known issues

Reproduced from the 'Known Issues' section of the *PCEHR Prescription and Dispense View Structured Content Specification*, v1.0, 9 May 2013.

Reference	Description
Links to external resources	If a link (usually in the references section) spans across several lines, certain combinations of PDF reader and web browser have problems opening it.
No requirements	There are no written requirements for this document. However, it was constructed using the Detailed Clinical Model for Medication Action (which is used for many PCEHR structured document specifications).
Medication Action DCM v4.0	Version 4.0 of Medication Action Detailed Clinical Model has not yet been published.
Unique Pharmacy Prescription Number	This is only meaningful when used together with the Pharmacy Approval Number assigned by Medicare Australia. The Pharmacy Approval Number is recorded in the Entitlement Number data element of the Dispensing Organisation. Any extract of the Dispense Item must include that information from the document context to be meaningful.

EP-1322:2013 PCEHR Prescription and Dispense View v1.0

Release note: NEHTA-1326:2013, 30 April 2013

Version	Date	Comments
1.0	30 April 2013	First release, consisting of the following components: <ul style="list-style-type: none">• <i>PCEHR Prescription and Dispense View Structured Content Specification v1.0</i>• <i>PCEHR Prescription and Dispense View CDA Implementation Guide v1.0</i>• <i>PCEHR Prescription and Dispense View Conformance Profile 1.1</i>
