

# Personal Health Notes v1.1

## Release Note

19 May 2016

Approved for external information

End product identifier: EP-2282:2016

### Release rationale

This incremental release of the Personal Health Notes end product includes the new *Personal Health Notes – My Health Record Conformance Profile*, which was previously published as part of the *PCEHR Conformance Profile for Consumer Entered Information Clinical Documents*.

No new conformance points have been added to the conformance profile.

### Document type name change

*Consumer Entered Notes* has been changed to *Personal Health Notes*. This is reflected in the name of this end product and the names of its new or updated product components. Names of other product components will be adjusted on their next update.

### Package inclusions

#### New

None

This end product has a dependency on *Clinical Documents - Common Conformance Profile v1.6<sup>1</sup>* published as part of the *Common - Clinical Document* end product.

## Scope

The scope of the Personal Health Notes end product has not changed as part of this release.

## Stakeholders

The updates performed for this incremental release of the end product did not warrant any stakeholder consultations.

## Audience

- Implementers of clinical information systems and contracted service provider systems
- Senior managers and policy makers, clinical experts, health information managers, IT operations and support teams, and system integrators

## Known issues

None known

## Support

For further support or to provide feedback, please email [help@nehta.gov.au](mailto:help@nehta.gov.au).

## Future releases

Increased uptake and implementation of the specifications provided as part of this end product are expected to result in the need to further update and improve these specifications. Any such updates will be managed through the joint change control process operated by the Commonwealth Department of Health.

In addition to changes managed through the joint change control process, NEHTA may provide supplementary implementation guidance for the specifications of this end product. Such information will be added to the end product as additional or updated product components and published as an incremental release of the end product (version identifier 1.0.x).
