

eProcurement v1.6

Release Note

27 February 2014

Approved for external information

Summary

EP-1367:2013 eProcurement v1.6

Release rationale

This minor release:

- Renames the National Product Catalogue end product to “eProcurement”, which more accurately reflects the content.
- Introduces an implementation guide for loan products booking and consumption.
- Updates the message implementation guidelines (MIGs), harmonised to a national standard across all public jurisdictions. This release adds functionality to address loan and consignment stock, as well as guidelines for the use of Radio Frequency Identification (RFID) for medical devices.
- Removes and archives the remaining product components that are out of date.
