

# Personal Health Summary Release Note v1.0.1

18 August 2014

Approved for external information

## EP-1751:2014 Personal Health Summary v1.0.1

### Release rationale

#### Template package library

This incremental release of the Personal Health Summary end product introduces the *Template Package Library* as a new product component. This version of the template package library contains all template packages available for the Personal Health Summary document type at the time of publication.

Of those template packages, the following is aligned with the *PCEHR Conformance Profile for Consumer Entered Information v1.3*<sup>1</sup>:

Document type variant	Conformance level	Template package ID
default	3A	1.2.36.1.2001.1006.1.16685.2

Future versions of the template package library will contain template packages aligned with the latest version of the PCEHR Conformance Profile, but not previous versions.

The full list of published template packages can be found in the *Template Package Directory*<sup>2</sup> published as part of the *Common – Clinical Document* end product.

#### Document type name change

'Consumer Entered Health Summary' has been changed to 'Personal Health Summary' (approved change request CCB-0297). This is reflected in the name of this end product and the names of its new or updated product components. Names of other product components will be adjusted on their next update.

### Package inclusions

#### New

Identifier	Name
NEHTA-1776:2014	<i>Personal Health Summary – Template Package Library v1.0</i>

#### Updated

Identifier	Name
NEHTA-1777:2014	<i>Personal Health Summary – Release Note v1.0.1</i> (this document)

<sup>1</sup> <https://www.nehta.gov.au/implementation-resources/clinical-documents/EP-1428-2013/NEHTA-1447-2013>

<sup>2</sup> <https://www.nehta.gov.au/implementation-resources/clinical-documents/EP-1754-2014/NEHTA-1738-2014>

## No change

Identifier	Name
NEHTA-0948:2011	<i>Consumer Entered Health Summary - CDA Implementation Guide plus Addendum v1.0</i>
NEHTA-0949:2011	<i>Consumer Entered Health Summary - Executive Summary v1.0</i>
NEHTA-0950:2011	<i>Consumer Entered Health Summary - Information Requirements v1.0</i>
NEHTA-0952:2011	<i>Consumer Entered Health Summary - Structured Content Specification v1.0</i>

## Removed

None

This end product has a dependency on *Clinical Documents - Common Conformance Profile v1.4<sup>3</sup>* published as part of the *Common - Clinical Document* end product.

## Scope

The scope of the Personal Health Summary end product has not changed as part of this release.

## Stakeholders

The updates performed for this incremental release of the end product did not warrant any stakeholder consultations.

## Audience

- Implementers of clinical systems producing or consuming Personal Health Summary clinical documents
- Senior managers and policy makers, clinical experts, health information managers, IT operations and support teams, and system integrators
- Technical and non-technical readers

## Known issues

None known

## Support

For further support or to provide feedback, please email [help@nehta.gov.au](mailto:help@nehta.gov.au).

## Future releases

Increased uptake and implementation of the specifications provided as part of this end product are expected to result in the need to further update and improve these specifications. Any such updates will be managed through the joint change control process operated by the Commonwealth Department of Health.

In addition to changes managed through the joint change control process, NEHTA may provide supplementary implementation guidance for the specifications of this end product. Such information will be added to the end product as additional or updated product components and published as an incremental release of the end product (version identifier 1.0.x).

## Previous releases

### **EP-0933:2012 Consumer Entered Health Summary v1.0**

Release note: NEHTA-0951:2012, 27 June 2012

#### **Introduction**

This release note introduces specifications associated with Consumer Entered Health Summary Version 1.0.

This solution bundle as detailed below is released with the following supporting document;

- Consumer Entered Health Summary Information Requirements v1.0

#### **Role**

The role of this release is to define the goal-state solution for the content of consumer entered health summaries communicated to the PCEHR System.

#### **Scope**

The PCEHR Concept of Operations [PCO-2011] states that PCEHR System will provide an avenue for individuals to enter some health information into the PCEHR via the consumer portal. This information includes the individual's contact details, and a consumer entered health summary which contains:

- Allergies and adverse reactions (including the substance /medicine /device name and the reaction they have had to it), and
- Medicines (including the branded name of the product).

The Consumer-entered health summary may be used in consultation with the individual's health provider, to help gather health information from the individual.

The Consumer entered health summary is intended to work in the same manner as the PCEHR Shared Health Summary. That is, the consumer-entered health summary is one document that the individual amends and uploads to the PCEHR.

#### **Solution Bundle**

The complete solution bundle for Consumer Entered Health Summary contains the following components.

1. Logical Service and (Structured Content Specification)
  - Structured Content Specification
  - PCEHR B2B Gateway Web Service Specification for Clinical Documents.
2. Technical Services Specification (SMD, CDA Implementation Guide & CDA Rendering Specification)
  - CDA Implementation Guide plus Addendum (Refer Zip File "Consumer Entered Health Summary CDA Implementation Guide plus Addendum")
  - CDA Rendering Specification
  - CDA Package – common profile specifications for attachments and their formats
  - Clinical Package – common logical model for bundling of clinical documents with referenced attachments

### 3. eHealth Conformance Profile

- PCEHR Conformance Profile for Clinical Documents – Common
- PCEHR Conformance Profile Clinical Documents CEI

B2B specifications associated with the PCEHR are detailed in a separate suite of documents and will be published independently of this solution bundle.

Variations resulting from the further delivery of PCEHR specifications will be managed through the PCEHR change control process.
