

## Package inclusions

## Release history

The view specifications contained in this release have already been published, this release is to introduce an additional view. The Registration Service TSS has never been previously released.

Version	Date	Comment
View Service Technical Service Specification 1.0	20 December 2011	Draft for Limited Release
View Service Technical Service Specification 1.1	18 January 2012	Final
View Service Technical Service Specification 1.2	26 April 2012	Final (ATS 5821 and error codes)
View Service Technical Service Specification 1.2	30 May 2012	Final (additional view included)
Registration Service Technical Service Specification 1.0	30 May 2012	Final

## Stakeholders

The following stakeholders have been involved in the development of this release:

- PCEHR Programme Team
- PCEHR B2B Tiger Team
- Reference Platform - NEHTA
- National Infrastructure Partner - Accenture

## **Audience**

This document is intended for:

- Developers and implementers of the National PCEHR System, Clinical Information Systems seeking to interact with the PCEHR System and PCEHR Conformant Portals (normative).
- Organisations that produce software products which seek to interact with the PCEHR System (normative).
- Jurisdictional eHealth programs (informative).
- The Australian Health Informatics Standards development community (informative).

## **Capabilities**

### **Additions**

- Addition of new view, `getRepresentativeListView`
- Introduction of a new operation, `registerPCEHR`

### **Changes**

- None.

### **Removals**

- None

### **Known issues**

NEHTA has identified the following open issues in this release:

- The documents released are technical in nature. The process definitions, in which these specifications are realised, for practical implementation will be released at a later stage.

## **Support**

This release of the View Technical Service Specifications extends the previous version; previous version of the View Technical Service Specifications is still supported via this Version.

This release will be supported until at least 30 June 2014

For further support or to provide feedback, please email [nehtasupport@nehta.gov.au](mailto:nehtasupport@nehta.gov.au)

## **Future releases**

Future planned releases will deliver the `getDemographicsDetails` view and support access for non HPI-O holding organisations.

## **Items to note**

In the View Service Logical Specification the consolidated view is described as being constructed from the Atomic data model. This statement should be read to mean that the consolidated view will be a compilation of the content of several data sources such as document list, document content, dates and possibly others. It should explicitly be noted that the consolidated view is, in its current design, not reliant on the existence of a full set of atomic data of the contents of the clinical documents.
