

# Secure Messaging Integration Toolkit Release Note

21 October 2016 v1.2.3 Approved for external information Document ID: DH-2442:2016

End product identifier: EP-2440:2016

# Release rationale

Version 1.2.3 of the Secure Messaging Integration Toolkit provides updated NASH PKI test certificates required by the following tools:

- Secure Messaging Test Harness
- Secure Messaging Delivery Agent.

The updated certificates are replacements for the certificates provided with the previous version of the tools, which expired on 13 September 2016.

The tools and updated certificates are published in version 1.0.1 of the *Secure Messaging Conformance Test Tools – Software Package*, which is part of this release.

The software package includes instructions for replacing the test certificates. Please refer to the installation guides included in the Documentation folder of the software package.

# Package inclusions

# **Updated (supersedes previous version)**

Identifier	Name and version
DH-2441:2016	Secure Messaging Conformance Test Tools - Software Package v1.0.1
DH-2442:2016	Secure Messaging Integration Toolkit - Release Note v1.2.3 (this document)

#### **Unchanged**

Identifier	Name and version
NEHTA-1621:2014	Endpoint Location Service B2B Client Library - Product Data Sheet v1.1
NEHTA-1622:2012	Endpoint Location Service B2B Client LibraryNET Sample Code v1.0.2
NEHTA-1623:2012	Endpoint Location Service B2B Client Library - Java Sample Code v1.0.0
NEHTA-1627:2014	HL7 MDM Library - Product Data Sheet v1.1
NEHTA-1626:2013	HL7 MDM Library - Java Sample Code v1.1.4

Identifier	Name and version
NEHTA-2349:2016	HL7 MDM LibraryNET Sample Code v1.0.7
NEHTA-1628:2014	Secure Message Delivery B2B Client Library - Product Data Sheet v1.1
NEHTA-1631:2012	Secure Message Delivery B2B Client Library - Compiled WSDLs for Java v1.0.2
NEHTA-2328:2016	Secure Message Delivery B2B Client LibraryNET Sample Code v1.1.0
NEHTA-1937:2014	Secure Message Delivery B2B Client Library - Java Sample Code v1.0.3
NEHTA-2030:2015	Secure Messaging Conformance Test Tools - Product Data Sheet v1.0

# **Audience**

Developers and testers of clinical information systems.

# Support

For further support or to provide feedback, please email the Agency Help Centre at <a href="help@digitalhealth.gov.au">help@digitalhealth.gov.au</a> or phone 1300 901 001. Your views on the scope and usability of the Secure Messaging Integration Toolkit will inform future releases.

# Future releases

The Secure Messaging Integration Toolkit will be released on an ad-hoc basis, based on providing new functionality or other changes as required.

# Previous releases

# Date

#### Version

10 June 2016

EP-2347:2016 Secure Messaging Integration Toolkit v1.2.2

Release note

#### Release rationale

Version 1.2.2 of the Secure Messaging Integration Toolkit provides an update to the HL7 MDM Library to address an important issue that could prevent MDM from being accepted by SMD messaging endpoints or receiving systems:

#### ISM-1 Encoding Type for Observation Value now Base64 instead of base64

11 May 2016

EP-2326:2016 Secure Messaging Integration Toolkit v1.2.1

Release note

#### Release rationale

Version 1.2.1 of the Secure Messaging Integration Toolkit provides an update to the Secure Message Delivery B2B Client Library (SMD Library) to accommodate a requirement introduced by a security patch for the .NET framework that was published by Microsoft on 8 March 2016.

This update addresses an issue that can affect both the transmission and reception of clinical documents via secure messaging.

Note: Some systems which do *not* use the SMD Library are also known to be affected. The changes implemented in this version of the SMD Library may be used as guidance for the developers of such systems.

The new .NET requirement has the potential to affect a large number of sites using Windows Vista, 7, 8.1, 10, 2008 or 2012 that have installed the Microsoft security patch published on 8 March 2016. More detailed information is available in the Affected Systems section below.

17 Dec 2015

EP-2207:2015 Secure Messaging Integration Toolkit v1.2

Release note

#### Release rationale

This release includes the Secure Messaging Conformance Test Tools – Software Package and its product data sheet, which give further details of the software package.

The software package includes:

- 1 Secure Messaging Test Harness, which automates the mandatory test cases for all four secure messaging roles (sender, receiver, sender intermediary and receiver intermediary), and also automates the test cases for immediate mode delivery.
- 2 Secure Message Delivery Agent (SMDA), which is an example implementation of secure messaging and includes an Endpoint Location Service (ELS).

The secure messaging conformance test tools support the Australian Technical Specification for Secure Message Delivery (ATS 5822-2010).

Earlier versions of some of this content were previously available on the Test Interest Group (TIG) site.

19 Dec 2014

EP-1939:2014 Secure Messaging Integration Toolkit v1.1

Release note

## Release rationale

The Java library has been updated and aligned with all other Java-based code to support up to Java version 7.2.1.

Updated product component:

• Secure Message Delivery B2B Client Library - Java Sample Code v1.0.3

# **Date** Version EP-1636:2014 Secure Messaging Integration Toolkit v1.0 11 Mar 2014 Release note Release rationale First release as new end product Secure Messaging Integration Toolkit. Note that the product components included in this release were previously released on nehta.gov.au as part of two end products (Common - Clinical Document and Secure Messaging). See release note for a mapping of the relevant product component identifiers. Updated product components in this release. • NEHTA-1621:2014 Endpoint Location Service B2B Client Library - Product Data Sheet v1.1 • NEHTA-1627:2014 HL7 MDM Library - Product Data Sheet v1.1 • NEHTA-1628:2014 Secure Message Delivery B2B Client Library - Product Data Sheet v1.1

Publication date: 21 October 2016
