## **Clinical Documents Integration Toolkit Release Note**

8 November 2021 v1.9  
Approved for internal information  
Document ID: DH-3544:2021

Related end product identifier: EP-3546:2021

### **Release rationale**

Version 1.9 of the Clinical Documents Integration Toolkit provides improvements for the following product component:

- Australian Digital Health Agency CDA Schema Extension 3.0.

Developers using any this product should consider using this latest version, as they resolve a number of potential compatibility issues, including support for new or updated clinical document types.

Please refer to the Change Details section below for more detailed information about the changes included in this release.

## Package inclusions

### Updated (supersedes previous version)

Identifier	Name and version
DH-3491:2021	<i>Australian Digital Health Agency CDA Schema Extension 3.0 - CDA Schema v20201203</i>
DH-3545:2021	<i>Australian Digital Health Agency CDA Schema Extension 3.0 - Compilable CDA Schema v20201203</i>
DH-3544:2021	<i>Clinical Documents Integration Toolkit - Release Note v1.9 (this document)</i>

### Unchanged

Identifier	Name and version
DH-2916:2020	<i>Clinical Document Library – Java Sample Code v1.2.2</i>
DH-2920:2020	<i>Clinical Document Data Extractor Library - .NET Sample Code v1.9.0</i>
DH-2915:2020	<i>Clinical Document Library - .NET Sample Code v4.6.2</i>
DH-2914:2020	<i>Clinical Document Library - Product Data Sheet v1.6</i>
DH-2917:2020	<i>Generic Clinical Document Style Sheet – Style Sheet No CSS v1.6</i>
DH-2918:2020	<i>Generic Clinical Document Style Sheet – Style Sheet with CSS v1.6</i>
NEHTA-2130:2015	<i>Clinical Document Data Extractor Library - Product Data Sheet v1.1</i>
DH-2627:2018	<i>Clinical Document Packaging Library - .NET Sample Code v1.5.4</i>
NEHTA-2154:2013	<i>Clinical Document Packaging Library - Java Sample Code v1.2.3</i>
NEHTA-2131:2015	<i>Clinical Document Packaging Library – Product Data Sheet v1.2</i>
DH-2466:2017	<i>Generic Clinical Document Style Sheet - Product Data Sheet v1.3</i>
NEHTA-1611:2014	<i>Prescription and Dispense View Style Sheet - Product Data Sheet v1.1</i>
NEHTA-1609:2013	<i>Prescription and Dispense View Style Sheet – Style Sheet No CSS v1.1.0</i>
NEHTA-1610:2013	<i>Prescription and Dispense View Style Sheet – Style Sheet with CSS v1.1.0</i>

## Change details

### CDA Schema Extension 3.0 v20201203

Type	Change
Enhancement	<ul style="list-style-type: none"> <li>Added Schema extension to support the PSML v2.0 document type</li> </ul>

## Audience

- Developers of software applications generating or displaying CDA documents;
- Senior managers and policy makers, clinical experts, health information managers, IT operations and support teams and system integrators.

## Support

For further support or to provide feedback, please email the Agency Help Centre at [help@digitalhealth.gov.au](mailto:help@digitalhealth.gov.au) or phone 1300 901 001. Your views on the scope and usability of the Clinical Documents Integration Toolkit will inform future releases.

## Future Releases

The Clinical Documents Integration Toolkit will be released on an ad-hoc basis, based on providing new functionality or other changes as required.

19 Dec 2014	<p data-bbox="416 300 1042 329"><a href="#">EP-1942:2014 Clinical Documents Integration Toolkit v1.2</a></p> <p data-bbox="416 338 560 367"><a href="#">Release note</a></p> <p data-bbox="416 376 611 405"><b>Release rationale</b></p> <p data-bbox="416 414 1430 506">This release includes an updated version of the CDA Document Library (.net) which supports the PCEHR R5 documents Pathology Report and Diagnostic Imaging Report and a new Java version of the CDA document library which supports a limited set of CDA documents.</p> <p data-bbox="416 515 1430 584">It also includes an updated Generic Style Sheet to support the two new PCEHR R5 document types, along with a few bug fixes and enhancements.</p> <p data-bbox="416 593 1345 622">There is a new library which allows the extraction of certain atomic data from CDA documents.</p> <p data-bbox="416 631 1374 701">Finally the Java CDA packaging library has been updated and aligned with all other Java-based code to support up to Java version 7.2.1.</p>
22 Aug 2014	<p data-bbox="416 730 1042 759"><a href="#">EP-1734:2014 Clinical Documents Integration Toolkit v1.1</a></p> <p data-bbox="416 768 560 797"><a href="#">Release note</a></p> <p data-bbox="416 806 611 835"><b>Release rationale</b></p> <p data-bbox="416 844 1430 913">This release includes the CDA Validator v2.0, which validates a CDA package against the relevant rules in <i>Conformance Test Specification for CDA Packaging v1.4</i>.<sup>2</sup></p> <p data-bbox="416 922 1430 1014">The CDA Validator supports the validation of clinical documents against validation rules contained in template packages. This increases the flexibility of the CDA Validator to deal with different versions of validation rule sets.</p> <p data-bbox="416 1023 1430 1182">Note that the schematron libraries bundled with previous versions of the CDA Validator are not included in this version. This removes the need to publish updated versions of the CDA Validator product whenever new or updated sets of validation rules become available. Instead, users can simply load template packages into the CDA Validator as needed. The template packages can be downloaded from the relevant clinical document end product.<sup>3</sup></p> <p data-bbox="416 1191 1241 1220">This version of the CDA Validator can create a test report in Microsoft Word format.</p> <p data-bbox="416 1229 1166 1258">The release also includes a product data sheet for the CDA Validator.</p>

[EP-1633:2014 Clinical Documents Integration Toolkit v1.0](#)

[Release note](#)

**Release rationale**

The eHealth integration toolkits are a collection of integration tools and sample code resources available in both .NET and Java. The sample code and integration tools are used within the eHealth Reference Platform, forming part of the code library for tools and simulators. Access to sample code and the eHealth Reference Platform's online simulator services is supported by suitable right-to-use licenses and terms and conditions regarding the eHealth Reference Platform.<sup>4</sup> (The eHealth integration toolkits are available from <http://www.nehta.gov.au/implementation-resources/ehealth-reference-platform>.)

The Clinical Documents Integration Toolkit contains libraries for the creation of CDA documents, packaging CDA documents and presenting CDA documents through the use of style sheets.

Note that the product components included in this release were previously released on [nehta.gov.au](http://nehta.gov.au) as part of two end products (Common – Clinical Document and PCEHR Prescription and Dispense View). See page 8 for a mapping of the relevant product component identifiers.

---

---

<sup>4</sup> Notice of Connections (NOC) for HI and PCEHR, and CCA conformance testing for all code, must still be completed by the vendor as per the licence agreement that accompanies each product, which states that it is the vendor's "responsibility to test and validate the use of this product within your software".

## Earlier Releases

Some of the product components in release v1.0, or their earlier versions, were previously released on [nehta.gov.au](http://nehta.gov.au) under a different end product, with a different identifier and slightly different name.

The table below shows the mapping between product identifiers, sorted by the old identifier. The highlighted rows indicate that the new identifier is for an updated version of the product component (which supersedes the previous version).

<b>Old identifier (previous end product)</b>	<b>New identifier (for this end product)</b>
