## My Health Record Software Vendor Support

16 February 2022 v20220216  
Approved for external use  
Document ID: DH-3617:2022

### Support contacts

#### Services Australia

##### Online Technical Support

The Developer Support Team is the first point of contact for software vendors. Depending upon the situation there are two options:

##### Developer Support Team

Developer Support Team supports new software vendors by distributing information (e.g. agreements, developer's kit, documents, software, and notifications). They are also responsible for customer relationship management and liaising with the relevant business area.

##### Online Technical Support (OTS) Helpdesk

The OTS Helpdesk helps software vendors diagnose and resolve technical issues during the testing and production stages.

Operating hours: 8.30am-5.00pm Monday to Friday (AEST).

#### Australian Digital Health Agency

##### Innovation, Implementation & Support Services

The Innovation, Implementation & Support Services team at the Australian Digital Health Agency assist software vendors developing products that connect to the My Health Record system. They provide expert advice regarding architectural and technical aspects of specifications for software products that transact with the My Health Record system.

##### My Health Record System Operator

The My Health Record Operations Team manages the day to day operational activities of the My Health Record System. They provide an after-hours helpline for serious incidents which may include any matter referring to **clinical safety (missing, incorrect or misleading information), privacy, fraud or security** due to the My Health Record System availability or the integrity of the system.
