Discharge Summary
Release Note

8 September 2022   v1.6
Approved for external use
Document ID: DH-3412:2022

Related end product identifier: EP-3415:2022

Release rationale

This minor release of the Discharge Summary includes the following change to *the Discharge Summary – My Health Record Conformance Profile*:

- Document subtyping introduced to improve clinical document discoverability.

The following change was also made to the *Discharge Summary – Template Package Library*:

- List of non-critical and non-clinical terminology validations removed from template packages. Previous versions of the template packages performed extensive validations of such terminologies; these have now been removed to ensure My Health Record rejections are not occurring due to minor terminology misalignments.

Please refer to the Change Details section below for further details.

The changes in this release are backwards compatible with the current template package.
