

My Health Record Software Vendor Support

19 December 2022 v20221219
Approved for external use
Document ID: DH-3737:2022

Support contacts

Services Australia

Services Australia has two points of contact for software vendors. Depending upon the situation the two options are below:

Developer Liaison

Developer Liaison supports new software vendors by distributing information e.g., agreements, developer's kit, documents, software, and notifications. They are also responsible for customer relationship management and liaising with the relevant business area.

Online Technical Support (OTS) Helpdesk

The OTS Helpdesk helps software vendors diagnose and resolve technical issues during the testing and production stages.

Operating hours: 8.30am-5.00pm Monday to Friday (AEST).

Australian Digital Health Agency

Implementation Support

The Implementation Support team at the Australian Digital Health Agency assist software vendors to develop products that connect to the My Health Record system. They provide expert advice regarding architectural and technical specifications for software products that transact with the My Health Record system.

My Health Record System Operator

The My Health Record Operational Performance Team manages the day-to-day operational activities of the My Health Record System. They provide production access, manage production issues, and monitor transactions in the My Health Record system.

Getting help

Testing registration

If you require assistance with the process of registration for My Health Record testing, please contact Services Australia on:
