Provider Connect Australia™ Business Partner Welcome Pack Release Note

31 March 2023   v1.0
Awaiting approval for external use
Document ID: DH-3759:2023
Related end product identifier: EP-3758:2023

Overview

The Provider Connect Australia™ (PCA) Business Partner Welcome Pack contains guides to help business partners register their organisation with PCA to receive information that has been published to them from healthcare provider organisations.

To enquire about becoming a PCA business partner, or for more information, please email pca@digitalhealth.gov.au.

Pre-reading

1. PCA Business Partner Integration Options

2. PCA Business Partner Data Model

Optional: If you wish to connect to the PCA FHIR API, follow the steps in the Provider Connect Australia Developer Guide.

Registration to PCA as a business partner

3. Subscriber Organisations Participation Agreement

   As part of the registration process, you will need to sign the *Subscriber Organisations Participation Agreement* included in this welcome pack and receive a copy countersigned by the Australian Digital Health Agency (the Agency).

Other documents to support registration to PCA:

4. PCA Business Partner Organisation Registration Quick Reference Guide

5. Information Use Statement Guide

6. HPI-I Collection Form (optional form that can be signed if your organisation is eligible to receive healthcare identifiers)

Disclaimer
The Australian Digital Health Agency ("the Agency") makes the information and other material ("Information") in this document available in good faith but without any representation or warranty as to its accuracy or completeness. The Agency cannot accept any responsibility for the consequences of any use of the Information. As the Information is of a general nature only, it is up to any person using or relying on the Information to ensure that it is accurate, complete and suitable for the circumstances of its use.

Document control
This document is maintained in electronic form and is uncontrolled in printed form. It is the responsibility of the user to verify that this copy is the latest revision.
