Aged care clinical information system standards
Release Note

28 August 2024 v1.0
Approved for internal information
Document ID: DH-3920:2024

Related end product identifier: EP-3885:2024

Release rationale

The ACCIS standards project was initiated with co-operation from the Department of Health and Aged Care to help address recommendations 68 and 109 of the Royal Commission into Aged Care Quality and Safety.

Package inclusions

New

Identifier	Name and version
DH-3886:2024	Gap analysis and environment scan for aged care CIS standards v1.0
DH-3887:2024	Recommended minimum software requirements for aged care CIS v1.0

Stakeholders

The following stakeholders have been involved in the development of this release:

- The Commonwealth Department of Health and Aged Care

- Australian Commission on Safety Quality in Health Care

- State and territory health departments

- Peak bodies, including ACCPA, ACIITC and RACGP, ACRRM

- Software developers

- Primary Health Networks

Audience

These documents outline recommended software requirements for software developers of aged care clinical information systems and electronic Medication Management (eMM) systems to incorporate into their product roadmaps.

Capabilities

The recommended minimum software requirements outline desired capabilities necessary for an aged care CIS to enhance system interoperability with other CISs.

Support

For further support or to provide feedback, please email help@digitalhealth.gov.au

Future releases

The recommended minimum software requirements highlight future standards for development that are included in the roadmap.

The development and release of recommended minimum software requirements for General Practitioner (GP) systems is anticipated to complement the recommended minimum software requirements for aged care CIS.
