

## Advance Care Planning Release Note

25 October 2024 v1.1.1  
Awaiting approval for external use  
Document ID: DH-3674:2024

Related end product identifier: EP-3673:2024

### Release rationale

This incremental release updates the Template Package Library, relaxing validation rules for Care Agency Employee Identifiers.

The relaxed validation allows local identifiers to be used to identify Care Agency Employees who author Advance Care Planning documents.

The template package IDs of the updated template packages have not been changed as part of this update, and so no change to clinical systems is required.

### Package inclusions

#### New

None

#### Updated (supersedes previous version)

Identifier	Name and version
DH-3674:2024	<i>Advance Care Planning – Release Note v1.1.1 (this document)</i>
DH-3675:2024	<i>Advance Care Planning – Template Package Library v1.0.1</i>

#### No change

Identifier	Name and version
DH-1532:2017	<i>Advance Care Information – CDA Implementation Guide v1.0</i>
DH-1531:2017	<i>Advance Care Information – Structured Content Specification v1.0</i>
DH-3141:2020	<i>Advance Care Planning – My Health Record Conformance Profile v1.1</i>

#### Removed (archived or withdrawn)

None

## Change details

Schematron validation rules to help validate the conformance of CDA documents with the specifications in this bundle are packaged as template packages and included in the following product component:

- Advance Care Planning – Template Package Library v1.0.1

The template package library contains the following template packages:

Document type variant	Conformance level	Template package ID	Build ID
HPI-I Relaxed	3A	1.2.36.1.2001.1006.1.226.1	40704
Default	3A	1.2.36.1.2001.1006.1.226.2	40704

Previous versions of the template packages included validation rules of Care Agency Employee Identifiers. This validation has now been removed, allowing for the successful upload of Advance Care Planning documents by Care Agency Employees.

Systems uploading a clinical document to the My Health Record system need to declare the template package ID indicating the document’s conformance level and document type variant.

The full list of published template packages can be found in *Template Package Directory v1.15*.

## Known issues

None.

## Support

For further support or to provide feedback, please email [help@digitalhealth.gov.au](mailto:help@digitalhealth.gov.au).

## Future releases

No future releases are planned for this end product; however, an update may be required if issues are identified during the build and implementation of these specifications.

## Previous releases

Date	Version
31 Mar 2020	<a href="#">EP-3142:2020 Advance Care Planning v1.1</a> <a href="#">Release Note</a> <b>Release rationale</b> This release updates the My Health Record Conformance Profile regarding text that is to be displayed by an uploading clinical information system.  The update aligns the display text to be displayed for Advance Care Planning and Goals of Care document types. The new text was devised based on advice provided by the lead implementation jurisdiction for Goals of Care, WA Health.
