Product or document version	Date	Release comments
v1.0	13 Aug 2020	<p>EP-3024:2020</p> <p>Release Note</p> <p>Release rationale</p> <p>The Goals of Care clinical document type is used to capture advance care information in alignment with Western Australia’s Goals of Patient Care Summary documents.</p> <p>Goals of Care documents represent a sub-type of Advance Care Planning documents.</p> <p>Goals of Care documents can include a statement related to a person’s care in the context of a serious illness, as agreed between him/her, his/her family, carers and healthcare team, i.e. high-quality discussions about what is important to them, promote good decision-making and patient-centred care. Goals of care cover many steps in healthcare decision-making, including decisions about specific treatments, the intensity of care and even planning for future care needs (advance care directive).</p>
v1.0.1		<p>This incremental release updates the Template Package Library, constraining the author of a Goals of Care document to healthcare providers who have an HPI-I only.</p>

Related end product identifier: EP-3677:2024

Release Rationale

This incremental release updates the Template Package Library, constraining the author of a Goals of Care document to healthcare providers who have an HPI-I only.

The template package IDs of the updated template packages have not been changed as part of this update, and so no change to clinical systems is required.

Package inclusions

New

None

Updated (supersedes previous version)

Identifier	Name and version
DH-3678:2024	<i>Goals of Care – Release Note v1.0.1</i> (this document)
DH-3679:2024	<i>Goals of Care – Template Package Library v1.0.1</i>

No change

Identifier	Name and version
DH-3025:2020	<i>Goals of Care – My Health Record Conformance Profile v1.0</i>
DH-3026:2020	<i>Goals of Care – Product Data Sheet v1.0</i>

Removed (archived or withdrawn)

None

Change details

Previous versions of the template packages included validation rules for Care Agency Employee Identifiers. These have now been removed to constrain the author of Goals of Care documents to healthcare providers with an HPI-I only.

Schematron validation rules to help validate the conformance of CDA documents with the specifications in this bundle are packaged as template packages and included in the following product component:

- Goals of Care – Template Package Library v1.0.1

The template package library contains the following template package:

Document type variant	Conformance level	Template package ID	Build ID
Default	3A	1.2.36.1.2001.1006.1.100001.2	40736

Systems uploading a clinical document to the My Health Record system need to declare the template package ID indicating the document's conformance level and document type variant.

The full list of published template packages can be found in *Template Package Directory v1.15*.

Audience

The intended audience of this document includes:

- developers and implementers of My Health Record-enabled software products
- health information managers
- IT operations and support teams
- system integrators.

Known issues

We have identified the following open issues in this release:

- None

Support

For further support or to provide feedback, please email help@digitalhealth.gov.au

Future releases

Additional updates may be required if issues are identified during the implementation of these specifications.
