

Advance Care Document Custodian v1.1 Release Note

19 May 2016

Approved for external information

End product identifier: EP-2276:2016

Release rationale

Advance Care Document Custodian

This incremental release of the *Advance Care Document Custodian* end product (formerly *Advance Care Directive Custodian*) introduces the *Conformance Profile* as a new product component, and updates the *Template Package Library*.

Note: With this release, the '*Common - Consumer Entered Information - PCEHR Conformance Profile v1.3*' will be archived and the Advance Care Directive Custodian Conformance points that are in the '*Common - Consumer Entered Information - PCEHR Conformance Profile*' will be reflected in this new profile, titled *Advance Care Document Custodian – My Health Record Conformance Profile v1.0*.

Conformance profile

The My Health Record programme has identified specific use cases where the author of this type of document may not have an individual healthcare identifier (IHI). For example, a care agency worker may add an advance care document to the My Health Record system on behalf of a consumer. The conformance profile allows for the use of an alternative identifier in these circumstances.

Template package library

The updated *Template Package Library* contains all template packages available for the *Advance Care Document Custodian* document type and can be identified using the template package ID, given in the table below.

The template package has been updated to allow the use of a care agency employee identifier instead of an IHI.

Document type variant	Conformance level	Template package ID
default	3A	1.2.36.1.2001.1006.1.16696.3 - CL 3A (svn-38809)

The full list of published template packages can be found in the *Template Package Directory* published as part of the *Common – Clinical Document* end product.

Document type name change

Advance Care Directive Custodian has been changed to *Advance Care Document Custodian*. This is reflected in the name of this end product and the names of its new or updated product components. Names of other product components will be adjusted on their next update.

Package inclusions

New

Identifier	Name
NEHTA-2279:2016	<i>Advance Care Document Custodian – My Health Record Conformance Profile v1.0</i>

Updated

Identifier	Name
NEHTA-2277:2016	<i>Advance Care Document Custodian – Release Note v1.1 (this document)</i>

Future releases

Increased uptake and implementation of the specifications provided as part of this end product are expected to result in the need to further update and improve these specifications. Any such updates will be managed through the joint change control process operated by the Commonwealth Department of Health.

In addition to changes managed through the joint change control process, NEHTA may provide supplementary implementation guidance for the specifications of this end product. Such information will be added to the end product as additional or updated product components and published as an incremental release of the end product (version identifier 1.0.x).

Previous releases

Date	Version
18 Aug 2014	EP-1745:2014 Advance Care Directive Custodian v1.0.1 Release note Release rationale This incremental release of the Advance Care Directive Custodian end product introduces the <i>Template Package Library</i> as a new product component. This version of the template package library contains all template packages available for the Advance Care Directive Custodian document type at the time of publication. Document type name change 'Advance Care Directive' has been changed to 'Advance Care Directive Custodian' (approved change request CCB-0297). This is reflected in the name of this end product and the names of its new or updated product components. Names of other product components will be adjusted on their next update.
27 June 2012	EP-0932:2012 Advance Care Directive v1.0 Release note Release rationale This release defines the goal-state solution for the content of the advance care directive custodian link in the Consolidated View, communicated between healthcare providers. The solution bundle includes the Advance Care Directive Information Requirements v1.0.
