

# Healthcare Identifiers Service Support Documents Release Note v1.2

31 October 2014

Approved for external information

## Summary

### **End Product: EP-1826:2014 Healthcare Identifiers Service Support Documents v1.2**

#### **Release rationale**

##### **End product name change**

This end product has been renamed to *Healthcare Identifiers Service Support Documents* to avoid confusion with the DHS Medicare Healthcare Identifiers Service and to provide a more accurate description of its contents.

##### **New B2B web service: Create Verified IHI for Newborn**

Through its regular continuous improvement cycle, the Healthcare Identifiers (HI) Service has made available a new B2B web service for requesting the HI Service to create a verified IHI for a newborn child. This release enables software to be designed and tested for the appropriate use of this new B2B web service. The HI conformance requirements for connecting software have been updated to reflect this new functionality.

The Department of Human Services (DHS) has released the following technical specification:

- TECH.SIS.HI.26: Create Verified IHI for Newborn

To support the release of the above web services, the following use case has been introduced:

- UC.011: Request verified IHI for newborn

This is an optional use case and there is no obligation for existing software to adopt the new web service.

The conformance requirements document has been updated to include this new use case and associated requirements.

##### **Guide for healthcare provider organisations**

This release includes a new guide for healthcare provider organisations who need to request the assignment of individual healthcare identifiers from the Healthcare Identifiers (HI) Service for newborns born under their care, using the Create Verified IHI for Newborns web service.

It covers principles relevant to individual healthcare identifiers for newborns, provides guidance for developing related organisational policies and processes, and provides details of associated workflows and business processes to ensure the service is used as intended.

This guide is intended to help organisations make effective use of the HI Service according to the National Safety and Quality Health Service Standards.

## Package inclusions

### New

---

Identifier	Name and version
NEHTA-1819:2014	Requesting IHIs for Newborns - A Guide for Healthcare Provider Organisations v1.0

---

### Updates (supersedes previous version)

---

Identifier	Name and version
NEHTA-1860:2014	Healthcare Identifiers Service Support Documents – Release Note v1.2 (this document)
NEHTA-1732:2014	Use of HIs in Health Software Systems - Conformance Requirements v3.1
NEHTA-1954:2014	Use of HIs in Health Software Systems - Conformance Test Specification v3.1
NEHTA-1733:2014	Use of HIs in Health Software Systems - Business Use Cases v3.1
NEHTA-1878:2014	Healthcare Identifiers – Declaration of Conformity v3.1
NEHTA-1875:2014	Healthcare Identifiers – Test Summary Report Template v3.2
NEHTA-1879:2014	Healthcare Identifiers - Implementation Conformance Statement Proforma v3.2

---

### Removed

The following documents have been removed from this end product and archived.

---

Identifier	Name and version
NEHTA-1189:2009	Healthcare Identifier Service - Service Business Use Case Catalogue v1.0 (out of date)
NEHTA-1161:2010	Healthcare Identifier Service - Communications Plan v1.0 (still available from <a href="http://www.nehta.gov.au/our-work/healthcare-identifiers-hi">http://www.nehta.gov.au/our-work/healthcare-identifiers-hi</a> )
NEHTA-1063:2011	Healthcare Identifiers Service - FAQ PKI Certificate Requirements for access to the HI Service v1.0 (details moved to the <a href="#">PKI certificate page</a> ).

---

### No change to the following inclusions

---

Identifier	Name and version
NEHTA-1163:2010	Healthcare Identifier Service - Concept of Operations v2.0
NEHTA-1079:2011	Healthcare Identifier Service - Conformance Assessment Scheme v3.0
NEHTA-1162:2009	Healthcare Identifier Service - Individual Healthcare Identifiers Business Requirements v1.0
NEHTA-1190:2009	Healthcare Identifier Service - Q&A for Healthcare Identifiers v1.0
NEHTA-1164:2012	Healthcare Identifier Service - User Guide for Practice Managers v1.0
NEHTA-1369:2013	Healthcare Identifiers Service - FAQ HI Service Vendor Q and A v1.0

---

## Support

For further support or to provide feedback, please email [help@nehta.gov.au](mailto:help@nehta.gov.au).

## Future releases

Incremental updates to this end product will be released as required.

## Previous releases

### **End Product: EP-1653:2014 Healthcare Identifiers Service v1.1.3**

24 March 2014

#### **Release rationale**

This release of the Healthcare Identifiers Service end product removes the developer resource product components and related product data sheets. These have been republished in a new end product, Healthcare Identifiers Integration Toolkit v1.0, available from the link below.

<http://www.nehta.gov.au/implementation-resources/ehealth-reference-platform/healthcare-identifiers-integration-toolkit>

The Healthcare Identifiers Integration Toolkit contains libraries for B2B connectivity to the Health Identifiers Service, searching for IHI, HPI-Is and HPI-Os.

#### **Package inclusions**

##### **New**

None

##### **Updated (supersedes previous version)**

---

<b>Identifier</b>	<b>Name and version</b>
NEHTA-1654:2014	Healthcare Identifiers Service – Release Note v1.1.3

---

#### **Moved to a new end product**

##### **Republished in [Healthcare Identifiers Integration Toolkit v1.0](#)**

The following product components have been removed from this end product and republished in the Healthcare Identifiers Integration toolkit (under the new identifier and name shown).

*Superseded and republished*

---

<b>Identifier</b>	<b>Name and version</b>
NEHTA-1615:2014	Healthcare Identifiers B2B Client Library - Product Data Sheet v1.1
NEHTA-1612:2013	Healthcare Identifiers B2B Client Library - .NET Sample Code v1.2.1
NEHTA-1614:2014	Healthcare Identifiers B2B Client Library - Java Sample Code v1.4.1

---

*Republished (same version, new identifier)*

---

<b>New identifier</b>	<b>Name and version</b>	<b>Old identifier</b>
NEHTA-1613:2013	Healthcare Identifiers B2B Client Library - Compiled WSDLs For Java v1.3.0	NEHTA-1376:2013

---

## End Product: EP-1645:2014 Healthcare Identifiers Service v1.1.2

24 February 2014

### Release rationale

Through its regular continuous improvement cycle, the HI Service has made available a set of new B2B web services. The HI Conformance Requirements for connecting software has been updated to reflect the new functionality available in the HI Service.

### Information for vendors

This release enables software to be designed and tested for the appropriate use of new B2B webservices for searching/validating HPI's in the HI Service (instead of the HPD).

Department of Human Services (DHS) have released technical specifications for the following HI B2B web services:

TECH.SIS.HI.31	Search for Provider Individual Details
TECH.SIS.HI.32	Search for Provider Organisation Details
TECH.SIS.HI.33	Search for Provider Individual Batch Asynchronous
TECH.SIS.HI.34	Search for Provider Organisation Batch Asynchronous

To support the release of the above web services, the following use cases have been introduced:

UC.131	Search for HPI-I's in the HI Service
UC.306	Get HPI-O status

These are optional use cases and there is no obligation for existing software to adopt the new web services. Implementers should note that software using the new webservices cannot assume HPI-Os and HPI-Is returned from the HI Service will be active. For this reason, HI software should build in the functionality to track HPI status over time for the correct management of these HPIs.

The *Implementation Conformance Statement* and *Healthcare Identifiers Declaration of Conformance* are available from <http://www.nehta.gov.au/our-work/healthcare-identifiers-hi/cca>

### Package inclusions

#### Updated (supersedes previous version)

---

Identifier	Name and version
NEHTA-1646:2014	Healthcare Identifiers Service – Release Note v1.1.2
NEHTA-1650:2014	Use of Healthcare Identifiers in Health Software Systems - Business Use Cases v3.0
NEHTA-1651:2014	Use of Healthcare Identifiers in Health Software Systems - Conformance Requirements v3.0
NEHTA-1652:2014	Use of Healthcare Identifiers in Health Software Systems - Conformance Test Specification v3.0

---

#### Withdrawn

---

Identifier	Name and version
NEHTA-1062:2011	Healthcare Identifier Service - FAQ HI Connection Steps v1.0

---

## End Product: EP-1472:2013 Healthcare Identifiers Service v1.1.1

26 September 2013

### Release rationale

This incremental release publishes a product data sheet for the HI client library.

### Package inclusions

#### New

Identifier	Name	Version
NEHTA-1409:2013	HI Client Library Product Data Sheet	1.0

#### Updated (supersedes previous version)

Identifier	Name	Version
NEHTA-1377:2013	Healthcare Identifiers Service Release Note	1.1

#### Removed

None

## End Product: EP-1382:2013 Healthcare Identifiers Service v1.1

2 July 2013

### Release rationale

This incremental release includes a new Vendor Q&A document and updated sample code to align with the June release of the Healthcare Identifiers (HI) Service.

### Package inclusions

#### New

Identifier	Name	Version
NEHTA-1369:2013	Healthcare Identifiers Service Vendor Q&A	1.0

#### Updated (supersedes previous version)

Identifier	Name	Version
NEHTA-1374:2013	HI Client Library .net Client	1.2.0
NEHTA-1375:2013	HI Client Library Java Client	1.3.0
NEHTA-1376:2013	HI Client WSDL Library Java Client	1.3.0

#### Removed

Identifier	Name	Version
NEHTA-1061:2011	Healthcare Identifier Service - FAQ HI CCA requirements and versioning	1.0
