

Appendix A. Addendum for Consumer Entered Notes CDA Implementation Guide Version 1.0 — 21 Dec 2011

This document lists the approved changes to Consumer Entered Notes CDA Implementation Guide Version 1.0 — 21 Dec 2011.

Reference	Description															
5.1 ClincialDocu-ment.	<p>The CDA Header of the current CDA Implementation Guide contains the templated of its equivalent SCS. The current specification doesn't allow/support any additional templateds required by other specifications, such as the CDA Rendering Specification.</p> <p>The other CDA specifications (such as Continuity of Care Specifications) allow multiple templateds which indicate constraints on the current CDA document and also allow additional templateds that may be required by other specifications, such as the CDA Rendering Specification</p> <p>Included here is the updated mapping for the 'templated' element and the 'templated/@root' attribute to allow multiple template identifiers.</p> <p>CDA Mapping</p> <table border="1" data-bbox="311 762 2172 1289"> <thead> <tr> <th data-bbox="311 762 1046 799">CDA Schema Data Element</th> <th data-bbox="1046 762 1332 799">Definition</th> <th data-bbox="1332 762 1480 799">Card</th> <th data-bbox="1480 762 1711 799">Vocab</th> <th data-bbox="1711 762 2172 799">Comments</th> </tr> </thead> <tbody> <tr> <td data-bbox="311 799 1046 1102">ClinicalDocument/templated</td> <td data-bbox="1046 799 1332 1102"></td> <td data-bbox="1332 799 1480 1102">1..*</td> <td data-bbox="1480 799 1711 1102"></td> <td data-bbox="1711 799 2172 1102"> <p>One or more template identifiers that indicate constraints on the CDA document that this document conforms to. One of the identifiers must be the templated that identifies this specification (see immediately below).</p> <p>Additional template identifiers may be required by other specifications, such as the CDA Rendering Specification. Systems are not required to recognise any other the template identifiers than the one below in order to understand the document as a [type] but these identifiers may influence how the document must be handled.</p> </td> </tr> <tr> <td data-bbox="311 1102 1046 1289">ClinicalDocument/templated/@root="1.2.36.1.2001.1001.101.100.1002.151"</td> <td data-bbox="1046 1102 1332 1289"></td> <td data-bbox="1332 1102 1480 1289">1..1</td> <td data-bbox="1480 1102 1711 1289">docType</td> <td data-bbox="1711 1102 2172 1289"> <p>The healthcare context-specific name of the published A Consumer Entered Notes CDA Implementation Guide.</p> <p>The identifier of the version that was used to create the document instance.</p> <p>ClinicalDocument/templated/@extension="1.0"</p> </td> </tr> </tbody> </table>	CDA Schema Data Element	Definition	Card	Vocab	Comments	ClinicalDocument/templated		1..*		<p>One or more template identifiers that indicate constraints on the CDA document that this document conforms to.
